

Non-Academic Mission Statements

Communications

To provide timely and accurate information across multiple media platforms and to promote Salus and its clinical facilities to potential students, patients and the community at large.

Facilities

To provide a safe, well maintained, efficient and clean environment throughout Salus' campus and clinics in order to promote the advancement of innovative education, clinical services and research.

Finance

To provide leadership, operational oversight and system coordination of financial products and services for the Salus community.

Human Resources

To provide quality services and support that attracts, engages and develops a high performing, diverse and inclusive workforce.

Information Technology Services

To provide leadership, expertise, innovation and customer-friendly support to the Salus community to meet its technical infrastructure, hardware, software and learning resource management needs.

Institutional Advancement

To provide leadership and expertise in the areas of fund raising, development, alumni and donor relations in order to support Salus' mission.

Learning Resource Center

To provide fulsome learning resources and related customer service friendly support services to foster excellence in education and research.

Safety & Security

The Department of Safety and Security is committed to working with Salus University students, faculty, staff and visitors to support and advance the goals of the University through the provision of a safe and secure environment conducive to advancement of innovative education, clinical services, and research.
