

SALUS UNIVERSITY IS HONORING

DR. NEAL NYMAN & DR. JEFFREY S. NYMAN

SALUS
UNIVERSITY
Pennsylvania College
of Optometry

Dear Colleagues,

Join us in honoring Drs. Jeffrey and Neal Nyman...

Jeff and Neal took a personal medical oath that welded their individual experience of optometry to contemporary ethics, addressing the population they served. As role models, they made it clear that the fulcrum of optometry lies in the patient-doctor relationship.

Jeff and Neal demonstrated how the art and science of optometry are connected. They, directly and indirectly, provided charity services to underserved communities. Lastly, but most importantly, they earned patients' abiding trust by sharing their pain and suffering, their health and well-being.

While Neal has stepped down from the insistent flow of daily clinical practice, Jeff is still in the midst. Let us express our thanks to those who have long been committed to PCO's core mission of teaching and patient care. Please consider honoring them with a gift to support the Nyman scholarships for PCO students.

With much appreciation,

**SUSAN C. OLESZEWSKI, OD, MA
PCO CLASS OF 1976; RESIDENT CLASS 1978**

**ROGER CUMMINGS, OD, FAAO
PCO CLASS OF 1976**

**BRIAN MAHONEY, OD
PCO CLASS OF 1985; RESIDENT CLASS 1986**

**CARLO PELINO, OD, FAAO
PCO CLASS OF 1994; RESIDENT CLASS 1995**

HONORING THE NYMAN BROTHERS

THE JEFFREY S. NYMAN, OD EMERGENCY SERVICE SUITE

A pioneer, he elevated the value of a PCO/Salus degree and the optometric profession as a whole. As chief of Emergency Services at The Eye Institute (TEI) for the entirety of his career, with a sincere commitment to his patients, Dr. Jeffrey Nyman enabled our graduates to distinguish themselves through increased expertise in patient care. Additionally, in the delivery and supervising of routine and urgent care, Jeffrey has mentored students and residents, making them some of the most talented optometric providers in the country. The University will honor Dr. Jeffrey Nyman by naming the Emergency Service (suite) at TEI, The Jeffrey S. Nyman, OD Emergency Service Suite.

THE NEAL NYMAN, OD SUITE THREE TEAM ROOM

The University will recognize Dr. Neal Nyman's decades of service by dedicating the "team room," located in TEI's Primary Care Suite Three, in his honor. For nearly 35 years, Neal served as the chief of Primary Care Module Four in the old TEI, and then as chief of Primary Care Suite Three in the renovated TEI. The team room represents a teaching space within the primary care suites where clinical mentor-mentee relationships flourish and where Neal impacted his students and residents with his quietly competent and compassionate teaching style.

NYMAN SCHOLARSHIP

Salus University seeks to recognize pillars of the PCO by naming suites at The Eye Institute and raising funds to create a scholarship for students dedicated to clinical eye care. Across 40 years, the Nymans mentored over 7,000 students and residents through exceptional clinical practice and optometric education. They have left indelible marks on the institution and its graduates.

Please join us in saying thank you to these exceptional clinical educators by making a meaningful gift toward our goal. All proceeds will be used to create a scholarship at PCO to be selected with input from the Nymans and the Dean's office.
